

Booth Museum of Natural History

194 Dyke Road

Brighton

BN1 5AA

Dear Class

Here at the Booth Museum of Natural History we have an enormous collection of amazing creatures and specimens from our planet. We have many thousands of animals- either stuffed, dried or in their skeleton form. We'd like to invite you to our special workshop called "Funny Bones".

During the session you will be getting really close to many amazing animals- some of which you won't have seen before. Some of them you've probably never even heard of!! You will be learning to examine animals closely and work out how they move, what they eat and how they have adapted to their environment.

We look forward to meeting you on the day.

Curator of Natural Sciences
