Brighton BN1 1EE

Dear Class

I desperately need your help!!!

My name is Jo and I am a Curator of Archaeology at Brighton Museum.

We have recently found a lot of Stone Age artefacts. We know that they were all found on Whitehawk Hill in Brighton - but we don't know who owned them or what they were used for.

We want to learn more about the people who used to go to Whitehawk Hill and why. Why was this such an important place? What kind of work did people do then? What was life like for them?

Do you think you could come into the museum and help us answer these questions?

Yours hopefully

Jo
